1 Introduction

This section title is recommended for the first section.

The number of pages for poster/demo paper is TWO. In case the number of pages still exceeds this limit after your efforts, please contact the Editor-in-Chief (Satoru Miyano: giw@ims.u-tokyo.ac.jp) for advice.

Do not change the text width, text height, baseline, font size, etc., specified in *LaTeX2e/LaTeX/MS Word* templates.

2 Method and Results

Of course you can create more sections if you want, within the page limit.

2.1 Tables

Table 1 is an example of a table.

Table 1: Bioinformatics conferences in 2002.

Conference	Date	Site
PSB	January 3-7	Hawaii
RECOMB	April 10-13	Berlin
ISMB	August 3-7	Edmonton
GIW	December 16-18	Tokyo

2.2 Figures

When you use a figure (Fig. 1) with a special style file, please provide it.

Printed version of “Genome Informatics” is monochromatic and has a page limit. But, electronic version (PDF, then HTML, XML) does not have such restrictions. Therefore, we encourage the author(s) to send any hypermedia files which can be attached to your paper. The electronic version will be open to public at JSBi Home Page (<http://www.jsbi.org/journal.html>).

Figure 1: This is a sample figure.

2.3 Citation and References

Here are examples of citation [1, 2, 3, 4, 6]. Reference style and citation should strictly follow this template.

1. References should be arranged in the alphabetical order of authors and all references should be cited in the paper.
2. Style (see examples in **References** below).
 - (a) Journal: author(s), title, journal name, vol(issue):startpage-endpage, year.
 - (b) Proceedigns: author(s), title, Proc. conference name, publisher (if possible), startpage-endpage, year.
 - (c) Book: author(s), title, publisher, year.
 - (d) Other: author(s), title, any helpful information, year.
 - (e) URL: [http://\(URL site\)](http://(URL site)). URLs should be listed in the last.

3 Discussions

Authors are recommended to use spell checker program and grammar check program for improving your final version.
