The aim is to present recent research results (theory/practice), to demonstrate systems, and to explore directions for future research and new applications.

### SPONSORED AND ORGANIZED BY

Bioinformatics Center (Kyoto University),  
Human Genome Center (University of Tokyo) and  
Grant-in-Aid for Scientific Research on Priority Areas  
"Genome Information Science" (MEXT of Japan).  
Poster and Software Demonstration Session is organized  
and sponsored by Japanese Society for Bioinformatics  
(JSBi, <http://www.jsbi.org/>).

### SCOPE

GIW 2002 is an international conference on genome informatics: computational analyses of genetic information. Its scope includes all work that is ultimately devoted to the computational understanding of biological systems on a molecular basis.
